Education

Vignan's Institute of Information Technology,
Bachelor of Technology in Computer Science

Nov 2022–2026 Cgpa :8.14
Visakhapatnam, Andhrapradesh

Experience

Python Program Intern, TechnoHacks

May 2024-Jun 2024

- Developed Python-based applications and scripts to solve real-world problems. Gained hands-on experience in core Python concepts including data structures, OOP, and file handling.
- Worked on mini projects such as [Tic-tac-toe game ,Rock paper scissors, Random password generator].Improved debugging and problem-solving skills by testing and optimizing code for performance.

Projects

Portofolio Website

- Designed and developed a personal portfolio website to showcase skills, projects, in a visually appealing and user –friendly layout.
- Utilized HTML,CSS, and JavaScript to create a responsive, mobile- friendly website. Included social media integration, allowing visitors to easily connect on platforms like LinkedIn, GitHub, and Twitter. **Easy2Search**
- Developed a centralized web Platform to provide official links to various government services, enhancing accessibility and user convenience.
- Streamlined the Search Process or government application forms by categorizing services and integrating a user-friendly interface.
